My experience asking relationship-building questions in relationships...

Okay, okay... So I've had a few relationships myself. And here's what I learned... if I had asked a few tailored questions in the beginning, I might have saved myself from getting into a poor relationship. That's what brought me to relationship questions. They help you save yourself from future misery. Or help you find future happiness.

Here are my BEST tips based on my own experiences...

- **Remember a few that you like** - Keep a couple of your favorite questions in mind. Try to remember a few for when the moment strikes you.
- **Don't forget these as a tool** - Whenever there's a dull moment, whether you're with a spouse or family... pull out a few of these questions.
- **Don't take it too seriously** - Especially when it comes to spouses or those you might be romantically interested in. This isn't a time to start digging! Have fun, make it silly, and don't take it all too seriously.
